## Feedback Analysis and Action Taken Report (2022-2023)

Dt: 29-04-2023

Feedback on curriculum from students, faculty, alumni and employers was collected by conducting surveys and the reports are generated. Based on the reports the analysis made and the actions taken are given below.

### I. Analysis

#### 1. Feedback from Students

A significant majority of students (around 80% to 85%) across both the MBA and MCA programs provided positive feedback on the curriculum, particularly in areas such as gaining in-depth knowledge, improving critical thinking, enhancing communication skills, promoting leadership abilities, and fostering teamwork. The curriculum was found to support students in achieving the program outcomes and specific objectives to a large extent. However, approximately 15% to 20% of students expressed that the curriculum could be further improved by including advanced courses that better align with current industry trends.

#### 2. Feedback from Faculty

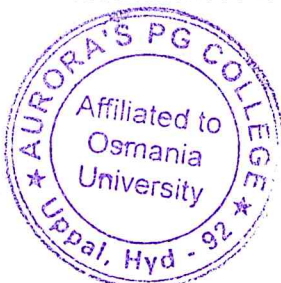

More than 85% of the faculty gave favourable feedback on various aspects of the curriculum, such as its relevance to industry standards, coverage of essential topics, balance between theory and practice, and integration of emerging technologies. Faculty also appreciated the emphasis on developing key skills, including critical thinking, communication, teamwork, and leadership. However, some faculty members noted that there is room for improvement in preparing students for advanced studies and careers, particularly in terms of balancing theoretical knowledge with practical skills.

#### 3. Feedback from Alumni

Alumni expressed positive feedback on the curriculum's relevance to their current jobs, particularly regarding the coverage of fundamental concepts, the inclusion of modern topics, and the balance between theory and practical application. Over 80% of alumni rated the quality of internships and practical experiences as good to excellent, noting the alignment with academic learning. Some alumni, however, indicated a need for better adaptation to new job challenges and the incorporation of more advanced technologies into the curriculum.

#### 4. Feedback from Employers

Employers generally rated the graduates' technical skills, problem-solving abilities, communication skills, teamwork, leadership potential, and adaptability as good to excellent. While the overall feedback on the curriculum was positive, some employers suggested that the curriculum should be updated to include courses that focus on the latest industry trends and practical exercises relevant to the industry. Additional training in specialised skills was also recommended to better prepare students for the evolving job market.

## II. Action Taken Report

In response to the feedback from students, faculty, alumni, and employers, the following actions have been implemented by the College Academic Committee to address areas of improvement and continue enhancing the MBA and MCA programs:

1. To provide students with practical exposure to the latest industry trends, the college shall plan and organise workshops led by industry experts, focused on emerging technologies and real-world business strategies.
2. The internship program shall be updated to provide students with more extensive exposure to industry-specific practices. The college is collaborating with companies to offer internships that are closely aligned with academic goals and students' career aspirations.
3. In response to feedback on career readiness, the college has strengthened its career counselling services and introduced workshops focusing on resume building, interview preparation, and professional networking to enhance student employability.
4. To maintain the curriculum's relevance, periodic reviews shall be conducted to incorporate ongoing feedback from all stakeholders, ensuring the programs align with evolving industry demands and academic standards.

## GOVERNING BODY MEETING

### Minutes of the Meeting

A meeting of the Governing Body of the institution is held on 24.06.2023 to discuss about the following agenda.

<b>Members present:</b>	Prof Anil .K. Saxena	Chairman
	Dr. Ramesh Nimmatoori	Management Nominee
	Sri. Anudeep . N	Management Nominee
	Prof. T. Krishna Rao	University Nominee
	Dr. K Raghu Naga Prabhakar	Member
	Mr. C. Krishna Prasad	Industry Nominee
	Dr. Jayasree Benkal	Industry Nominee
	Mr. Manish Deshpande	Industry Nominee
	Ms. D. Siva Ranjan Das	Faculty Nominee
	Mr. B. Santosh Kumar	Faculty Nominee

The Governing Body meeting commenced with the opening remarks by the Chairman Prof. Anil K Saxena. He greeted all the members of the Governing Body and spoke about the importance of faculty competence in Institution Building.

#### AGENDA OF THE MEETING

1. Students Skill Enhancement
2. Collaboration with Industry
3. Students Progression
4. Enhanced Service Quality
5. Any other points with the permission of the chair

#### Discussions:

##### 1: Student skill Enhancement

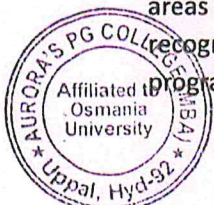

For MBA and MCA students, skill enhancement is a continuous process that combines formal education with hands-on experiences. By developing these key skills, students will be well-prepared to thrive in the fast-paced and competitive business environment. The process involves taking part in workshops, internships, real-world projects, and building networks that enrich both academic and practical knowledge.

##### 2: Collaboration with Industry.

Collaboration with industry by Post Graduate colleges is essential for bridging the gap between theoretical education and practical, real-world applications of computer science and IT. Industry partnerships provide students with the opportunity to develop the necessary technical, soft, and managerial skills to thrive in the fast-evolving tech landscape.

##### 3: Student Progression

Student progression refers to the academic, professional, and personal growth that students experience throughout their education. students need to develop soft skills such as communication, teamwork, leadership, problem-solving, and adaptability. Many programs incorporate training in these areas to ensure well-rounded development. As students progress, they may also pursue industry-recognized certifications in areas such as cloud technologies, data analytics, cyber security, or programming languages. These certifications help validate their knowledge and improve employability.

**4: Enhanced Service Quality**

Principal has elaborated on the initiatives taken by the college to improve the quality of services. He has proposed that implementation ERP has improved the services offered to students like library automation issue of books, fee payment, Scholarship services, examinations, certificates issue etc Principal has said that ERP implementation has reduced the waiting time of students in availing of various services by the students.

**5: Feedback Analysis**

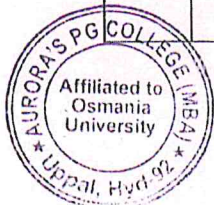

The feedback analysis report for the academic year 2022-23 was presented to the members. The report indicated that stakeholders rated all aspects of the institution as good to excellent. However, concerns raised by students regarding research and innovation were noted. To address these concerns, it was decided to encourage students to undertake innovative projects and publish their work in journals. Additionally, the members suggested collecting feedback online through Google Forms to save paper and integrating this process with the ERP system for streamlined management.

**Resolution:**

1. It is resolved to pursuer activity for autonomous status with UGC.
2. Collaborating with tech companies, software development firms, and IT departments for internships and industrial training. Inviting industry experts to deliver guest lectures and conduct workshops on current trends, technologies, and industry practices. Industry-recognized certifications that improve employability.
3. Exposure to real-world industry settings through internships and industrial training is crucial for student progression. These experiences help students understand how to apply their academic learning in a business environment, develop professional networks, and gain insights into their career paths.
4. To make full use of online platforms and Learning Management Systems (LMS) that allow students to access study materials, attend virtual lectures, and participate in online discussions, enhancing flexibility and learning quality.
5. To collect feedback from all the stakeholders through online mode, i.e. either ERP or Google Forms from the next academic year.
